Hi Amy,

Please find the requested documents attached. Below are some additional details as well as a projected transaction sequence w/ cap tables. The Customer and Product profiles template is 80% complete. This will be done tomorrow and emailed over. If there's anything else you need please let me know. Once you have had time to review, I would love to setup a call to walk through everything and answer any questions or concerns you may have.

- The Cap schedule w/o BW is currently split equally 4 ways between Pat, Tony, Adam and myself. This will be adjusted accordingly with your equity investment.
- The operating agreement for 4B Partners is currently being drafted. We will send that over ASAP.
- The board for 4B Partners is Pat, Tony, Adam and I who all have voting rights. You must have 3/4 votes for approvals.
- The SafeWay purchase agreement is also currently being drafted. Will send over ASAP.
- The SafeWay financials are attached as an Income Statement through 10/31/19. We do not have them for 2018, only their tax return.

4B Partners Transaction Sequence:

- SafeWay: LOI states a closing on or before 12/31.
- SafeChain: Closing to be held on or before 1/31

4B Partners cap table as follows based on \$1mm equity investment from Amy & Anand:

- Temporary: 12/31 - 1/31, Pre SafeChain / Post SafeWay
 - 25% Amy & Anand
 - 75% Pat, Tony, Adam and I
- Finalized: 1/31+, Post SafeChain / Post SafeWay
 - 12.5% Amy & Anand
 - 87.5% Pat, Tony, Adam and I

Let me know if this looks a little better. I just got off with Adam and we were also talking about potentially running these as two separate companies all together where pharma funding could potentially be the LOC for Safeway. Just planning....
